

Home Expansion - Corner GW paint holder regular / stackable

READ General Instructions FIRST!

TIP: Most pieces fit together without glue. Do a test run first, before gluing.

Regular: HCG-1 to -4
Stackable: HCGS-1 to -5

1

1 the pieces that need to be glued

2

2 first glue in the 3 paint holders into the tabs of middle strut (they only fit in the right slits). Glue the middle strut into the base plate.

3

3 glue on the 2 side walls, tabs all the way in.

4

4 then glue in one back / sidewall, round hole facing up.

5

5 Glue on the other side / back wall and then the large back wall with plenty of glue between the angled pieces to ensure they hold properly and the gaps are closed.

6

6 Glue the front support strip (4 slits) onto the front of the base plate, and ensure that the whole module is straight. Also glue the little piece with 3 tabs into the slits of the bottom plate from below.

Stackable: Glue on the top plate also (with 2 round holes)

Tip: During glue drying time use masking tape to ensure proper angles / fit of the large back plates.
