

Home Expansion – Paper Towel Module, stackable

READ General Instructions FIRST!

TIP: Most pieces fit together without glue. Do a test run first, before gluing.

Sheets: HP1 to 3

1

1 the pieces that need to be glued together.

2

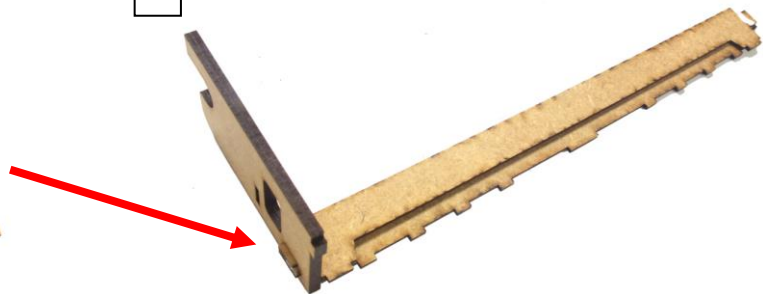

2 first glue in the 2 small strips with the 3 tabs into the slits of the bottom from below

3

3 Glue together 2 each of the towel holders, very fittingly. Do this twice.

4

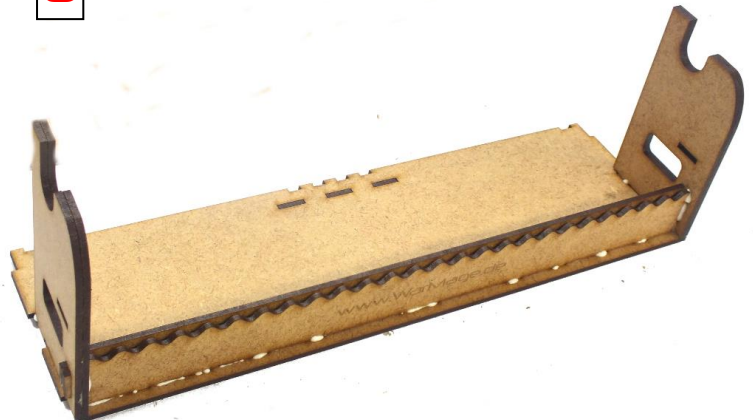

4 Glue in the 2 paper holder strips into one side of the towel holder. The tabs stick out on the side. Make sure there is NO glue between the paper holder pieces.

5

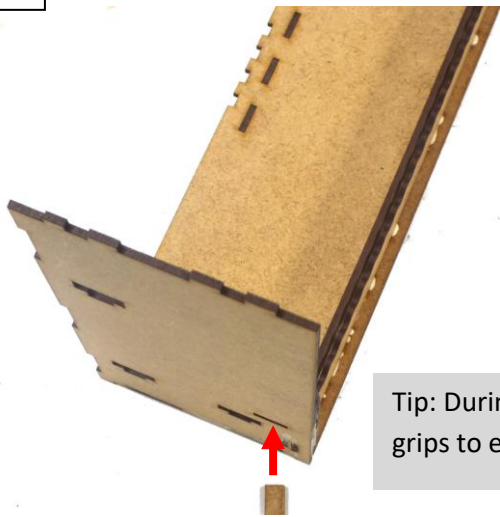

5 Glue in the 2 paper holder strips into the other towel holder. The tabs stick out on the side.

6

6 Glue this into the slits of the bottom plate. With plenty of glue.

7

Tip: During glue drying use vice grips to ensure good adhesion

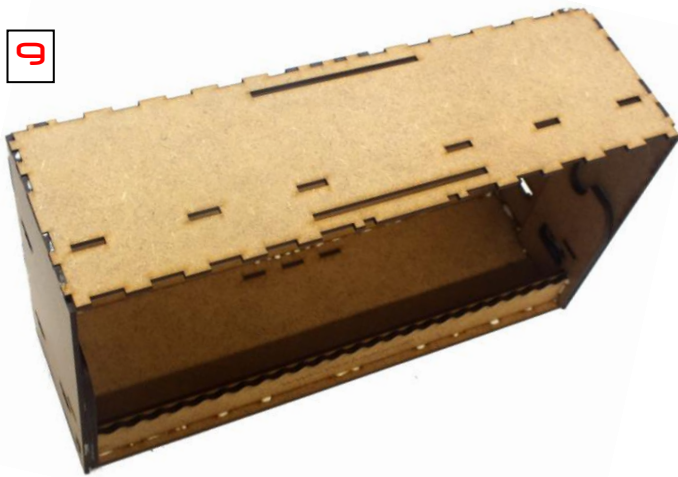

7 Glue on one sidewall. Make sure there is plenty of glue between the sidewall and the towel holder. Also glue in the little guide piece.

8

8 Glue on the other side wall the same way. Then glue in the back wall, little round holes towards the top. Ensure right angles.

9

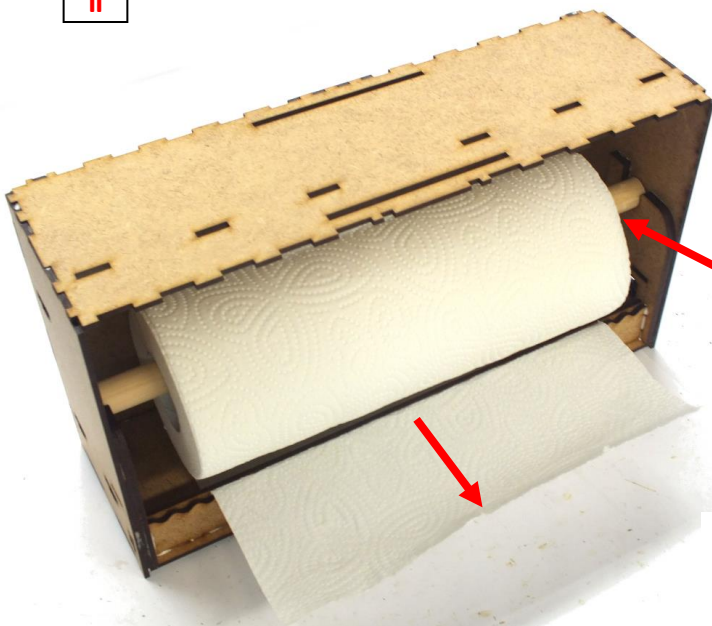

9 Glue on the top plate. Ensure right angles.

10

10 Glue the Paperroll holder together by the long sticks inserted into each other and then glueing on 2 each of the round endpieces. Use plenty of glue to connect the 2 long sticks to ensure strength.

11

11 Put paper towel roll over the stick, loose paper facing down. Fit stick into the towel holder, no glue. Guide the paper in between the 2 paper holder strips by pushing against and up.

Do not use excessive force when ripping off paper towels.
