

Home Expansion - Large GW module

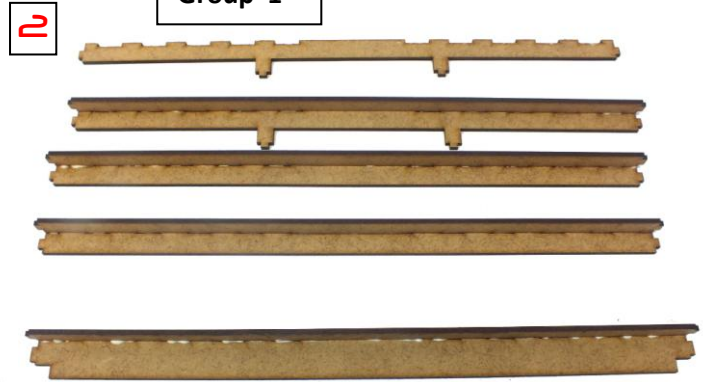

READ General Instructions FIRST!

TIP: Most pieces fit together without glue. Do a test run first, before gluing.

Sheets: HG1, HG2

1 the pieces to be glued.

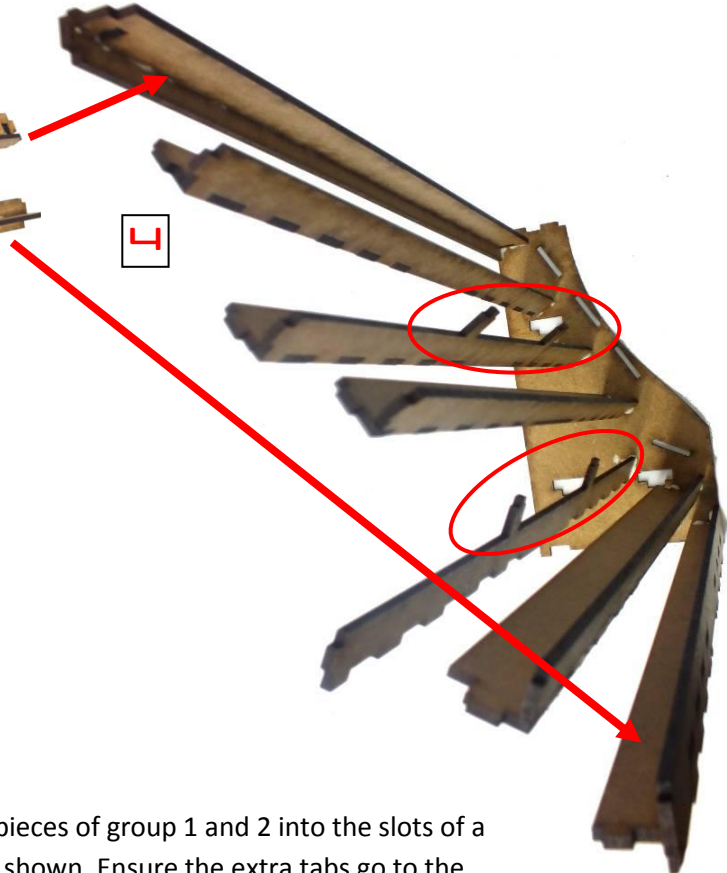

Group 1

2 **Group 1:** first glue two of the small strips together. Ensure right angles. Do this 4 times. One pair with the extra tabs on it. One pair with the larger piece. 2 regular sets. One piece with extra tabs by itself.

Group 2

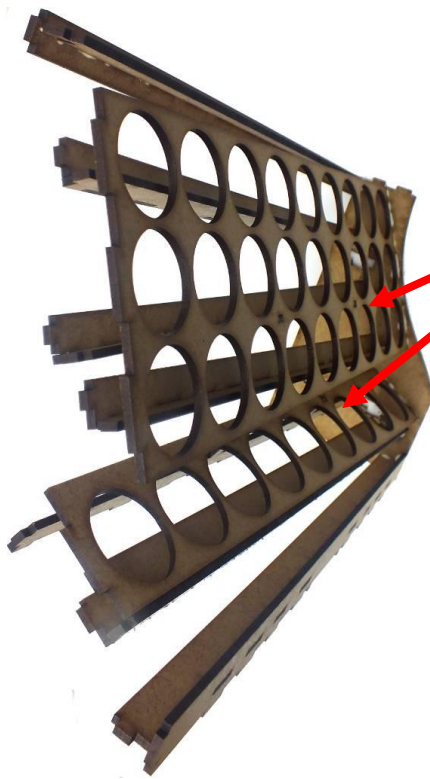

3 **Group 2:** glue the support pieces into the front and back pieces.

4

4 glue the pieces of group 1 and 2 into the slots of a sidewall as shown. Ensure the extra tabs go to the front.

5

5: glue in the paint holders into the angled slits. Make sure the extra tabs go into the holes.

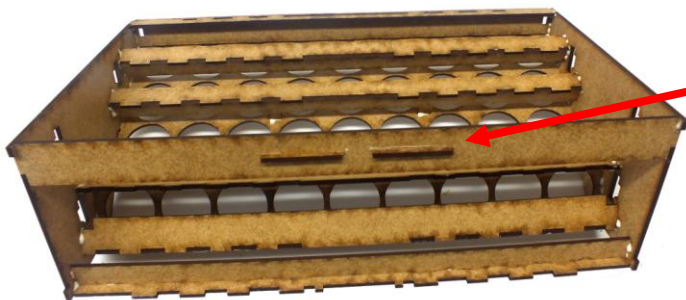

6

6 Now glue on the other sidewall. Best to work from top to bottom. Take your time, it can be a bit tedious. Also put glue on the top, where it touches the paint holder. **Ensure right angles!**

Insert fully into the slots on both sides!

7

7: Lastly, glue in the back support piece at the bottom and the 2 short T-shaped strip at the bottom from below. Careful not to break it.
