

small GW / Dropper paint holders for Small Station

READ General Instructions FIRST!

TIP: Most pieces fit together without glue. Do a test run first, before gluing.

Sheets:

GW: SG-05, SG-06

Dropper: SD-06, SD-07

One on each sheet

**Pictures show GW version.
Dropper is the same
assembly, just taller.**

Use sidewalls with one tab on top.

**The ones on the sheets with 2 tabs on top are
for the large paint holder (one on each sheet).**

1

1 the pieces that need to be
glued together.
Assemble twice the same way

Sidewalls with one tab on top

2 The tabs on the side towards the low front piece.

First glue the paint holder into the slits of the front and back walls.

3

3 then glue in the sidewalls.

Ensure right angles

The "Bones" are to connect units to each other instead of the water pot holders. No glue.

4

4 the front and back walls stick out on the bottom, which is correct.

Tip: During glue drying use vice grips and insert the paint holders into the bottom plate to ensure right angles / fit.

Don't let glue come out anywhere.
