

**small / large low GW paint holders
for Ultimate version**

READ General Instructions FIRST!

TIP: Most pieces fit together without glue. Do a test run first, before gluing.

SMALL:

UGS1 & UGS2

One on each sheet

LARGE:

UGA1 & UGA2

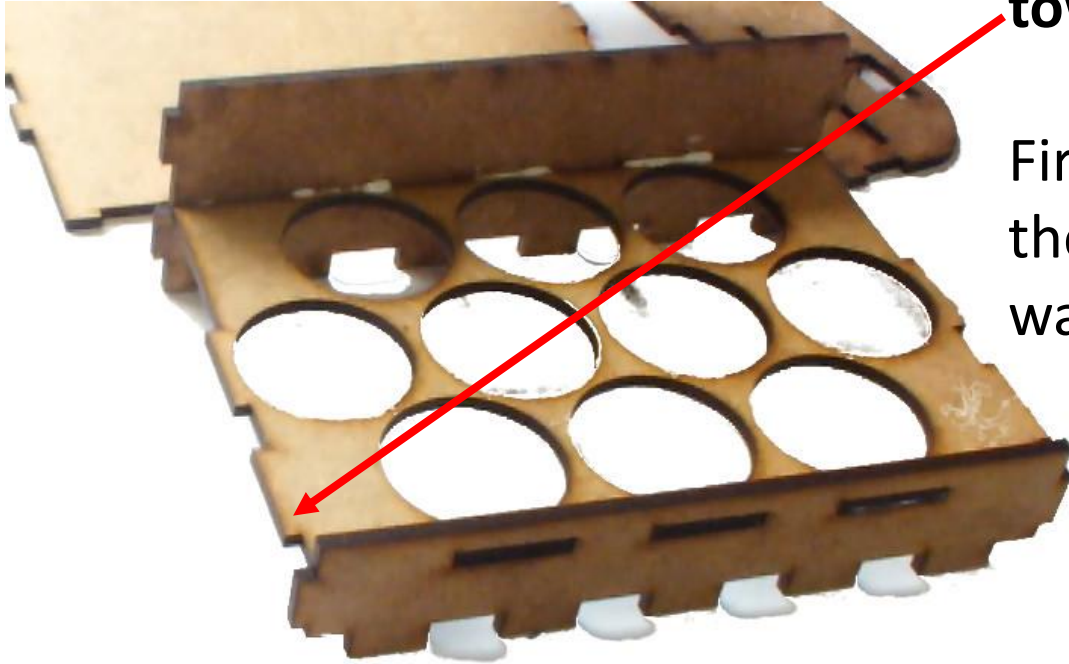

1 the pieces that need to be glued together.
Assemble twice the same way

Sidewalls with one tab on top

Remaining parts of UGS1 & UGS2 are for middle / upper plate.

2

2 The tabs on the side towards the low front piece.

First glue the paint holder into the slits of the front and back walls.

3

3 then glue in the sidewalls.

Ensure right angles

4

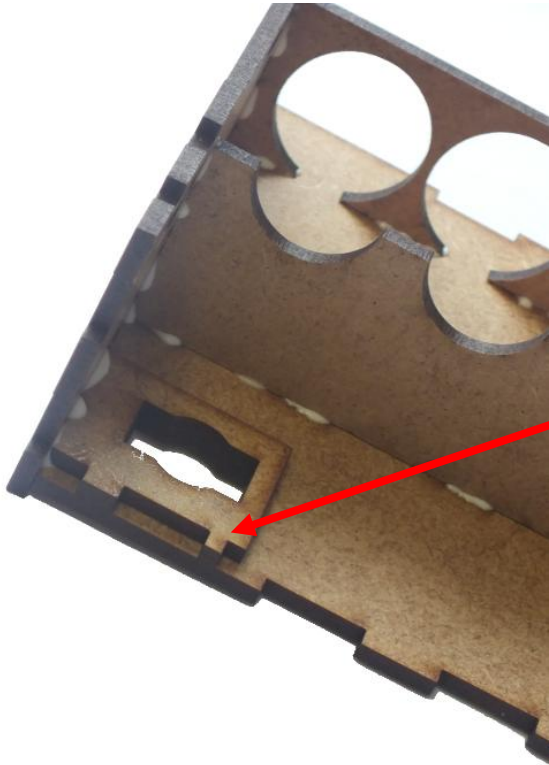

4 the front and back walls stick out on the bottom, which is correct.

Tip: During glue drying use vice grips and insert the paint holders into the bottom plate to ensure right angles / fit.

Don't let glue come out anywhere.

Additional steps for the large low dropper holder

5

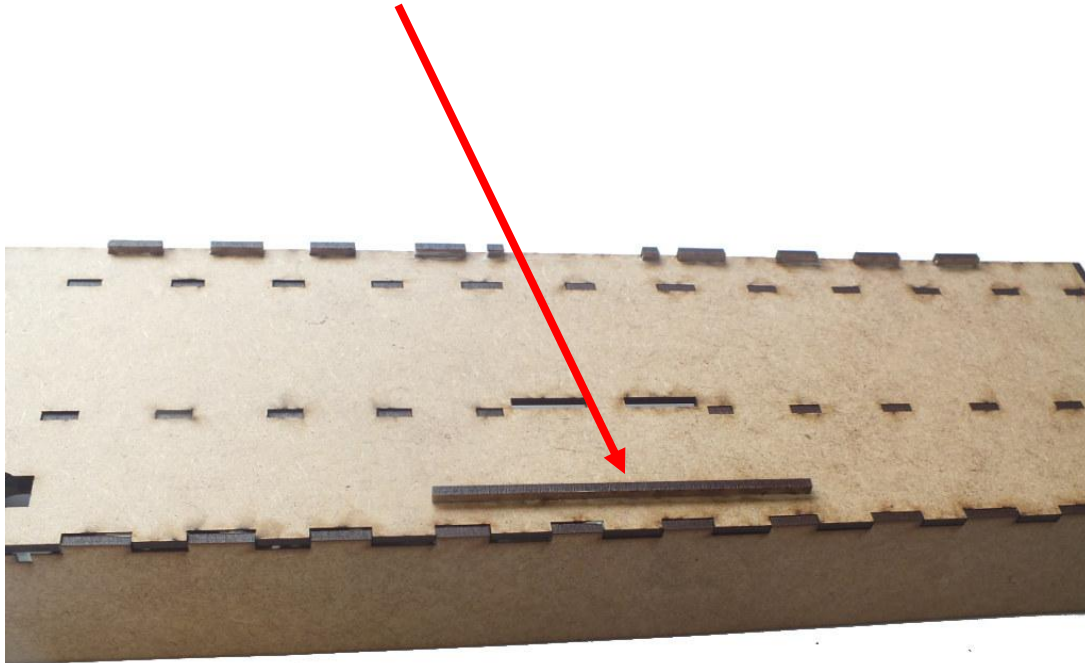

**Sheets:
UGA-1 & UGA-2**

5 For the large paint holder, during step **3 and 4**, glue in the 2 keyhole plates fitting into the inside corners. The little tabs go into the side & back walls. Make sure there is no glue in the key holes and that they are exactly matching!

6

6 For the large paint holder, glue the small strip with 3 tabs into the 3 slits from below. Careful not to break it.

**Remaining parts of
UGA2 are for small
storage box – Ultimate
& connectors**
